Issue Date: June 25, 2020

Topic: Discrepancy Report Updates

Discussion: The AcqDemo Program Office ran the Discrepancy Report job for the most recent DCPDS export we received on June 24th. If your Pay Pool has employees with updates, errors, and/or warnings; you will receive a Pay Pool Notification. NOTE: You will NOT receive a Pay Pool notification if there are no updates, errors, and/or warnings. You will find an updated Discrepancy Report Job Aid on the AcqDemo website at https://acqdemo.hci.mil/training.html#cas2netJA, under the Administrator section.

The report was updated to include the following:

- Use UIC pay pool association for unclaimed records, if not found, use sub-agency, if still not found, add to PMO file Add UIC / PAS to differences tab to display the UIC/PAS and the mapped pay pool code (Army mapped UIC to Pay Pool, so Unclaimed Records will go to Pay Pool based on UIC association on the Organization Details page)
- Do not update user if DCPDS Opt-Out flag is set on user profile. Yellow highlights on differences tab if no update was completed for Employee based on this flag.
- Change error message "No pay band in current cycle" to "No broadband in current cycle"
- Change error message "Pay band on temporary promotion does not match user profile" to "Career Path / Broadband on temporary promotion does not match user profile"
- Change error message "Sub-Panel not set for user" to "Sub-Panel not set for user (not assigned)"
- Add error message "User is archived/inactive" if user is found but set to inactive
- Add error message "User is in transfer pool" if user is found but org set to transfer org
- Add error message "Broadband Level '{dcpdsLevelCode}' is invalid for Career Path '{dcpdsCareerPathCode}'" if broadband level not associated to career path
- Add error message "Occupational Series '{dcpdsSeriesCode}' is invalid for Career Path '{dcpdsCareerPathCode}'" if occ series not associated to career path
- Add warning message "DCPDS opt-out flag is set for user in CAS2Net" if the DCPDS Opt-Out flag is set on user profile

Action: FYSA

Note: If you have any questions, please contact your local AcqDemo POC or Component POC first and if the issue is system-related, email the AcqDemo Program Office, AcqDemo.Contact@hci.mil
