

CAS2Net Administrator Advisory

2021-22

Issue Date: November 10, 2021

Topic: CAS2Net Maintenance

Discussion: The DoD Program Office has noticed some trends where CAS2Net users have experienced short-term issues with system access during certain times of the day. As part of the analysis of this issue, the Hosting Facility plans to spend some time from 0800 to 1100 on November 11th (Veteran's Day) to review server configurations and update as necessary to help them isolate the root cause of this issue. Users who plan to work on the holiday may experience intermittent access issues during this time.

Action: For your situational awareness.

Note: If you have any questions or experience any issues related to the above notice; please email the AcqDemo Program Office, AcqDemo.Contact@hci.mil.
